

INBB, the National Institute of Biostructures and Biosystems, is looking to strengthen its team in the laboratory at the Department of Chemistry at the University of Catania (Prof. Giuseppe Spoto), with the immediate appointment of a Junior Scientist (m/f) for Health H2020 Project ULTRAPLACAD. In the framework of the H2020-funded ULTRAPLACAD project, INBB aims at the development of a novel robust in vitro diagnostic system for early cancer diagnosis, prognosis, patient follow-up and therapy efficacy assessment based on molecular analysis of peripheral blood.

INBB offers a 6 months postdoctoral position in order to support the research in nanoparticle-enhanced surface plasmon resonance imaging (SPRI) for detection of genomic DNA related to cancer diagnosis and prognosis.

In particular, the Junior Scientist will be responsible for the development of nanoparticle-enhanced surface plasmon resonance imaging assay for the detection of DNA point mutations.

In collaboration with other team members, the Junior Scientist will pursue its application for detection of DNA point mutations relevant to colon cancer diagnostics.

Qualifications:

PhD in Chemistry or related matters.

Previous experience with surface plasmon resonance or surface plasmon resonance imaging.

Previous experience in the area of biosensors and nucleic acids and their detection is advantageous.

Good social and organizational skills in order to independently carry on research and support PhD and Master students

Fluent oral and written communications skills in English

Enthusiasm for scientific experimental activities and for team working

Salary:

The gross salary is EUR 1.713,54 for month.

Work Place:

Department of Chemistry

University of Catania

Viale Andrea Doria 6

Catania , Italy

Starting date: within October 12th, 2016

Deadline for submission of applications: **October 3rd 2016**

We are pleased to invite interested persons who wish to be part of a project dedicated to contribute, through application of fundamental knowledge and combination of different scientific skills, to the improvement in the quality of life and efficacy of treatment for a large population of patients across Europe.

Please attach meaningful application documents, including certificates and photos, and a cover letter explaining the interest for the position and eligibility, indicating a Skype contact (or equivalent) for eventual interview.

Applications should be sent (by e-mail) to:

Consorzio I.N.B.B. - Viale Medaglie d'Oro, n. 305 - 00136 Roma.

e-mail: inbbamm@inbb.it (send also a copy to gspoto@unict.it)

The post Junior Scientist (m/f) for Health H2020 Project ULTRAPLACAD will be posted in INBB site, and EURAXESS.
