

The BIOHEALTH Gear Box Alliance (BIO-ALL) project

BIO-ALL, a project for students in Biohealth/Entrepreneurship

BIO-ALL is a project funded under the Erasmus+ Programme, which aims at developing innovative approaches, providing entrepreneurial skills to academics and business professionals, to stimulate entrepreneurship and facilitate the exchange and co-creation of educational tools and knowledge.

BIO-ALL - BIOHEALTH Gear Box Alliance- was born from the need to develop specific post-graduate programs in the Biotech and Health (BIOHEALTH) sectors, designed to bridge the gap between the offer of university curricula and the skills required by the business world.

This is why the pioneering International Post Graduation programme (composed by a modular programme and project-based activities (such as Hackathons/Boot Camp/Pitching Day) and the ground breaking International Joint Acceleration Programme (for students in the Biohealth/Entrepreneurship sector who want to develop and bring to market an idea they had during their training).

In Italy, the co-leader of the International Joint Acceleration programme is the start-up accelerator Cube-Labs. The programme will start in June 2021. It is intended for all those who want to expand their training in biohealth/entrepreneurship, tracing a winning path and bringing their idea to the market.

The calls for seed companies in the biohealth sector who wish to participate will start in January 2021: the winner, in addition to participating in the course, will have access to a prize of € 5 000.

Which are the areas that are part of the BIOHEALTH sector?

Biotechnology, medicine, ICT, pharmaceutical industry, medical devices, chemistry, etc.

The 13 partners involved in the project and coming from 4 European countries will have the task to design and develop new tools in order to increase the responsiveness of the academic training offer in support of entrepreneurship in the BIOHEALTH sector.

During the BIO-ALL project, SPARKATHONS will be organized. Sparkathons are seminar type of event aimed at presenting and disseminating project achievements and main results, fostering a paradigmatic shift in the way key-players see both BIO-related and Entrepreneurship / Innovation-fostering programmes / studies

INVITATION TO THE CUBE-LABS SPARKATHON

Cube-Labs is organizing one of the Italian based BIO-ALL sparkathons on December 4 2020 at 16:30.

It will consist in a virtual face-to-face meeting with three Italian start-ups in the BIOHEALTH sector:

Bio Aurum, MRC and Skin Plastic Lab.

Title: innovation in the BIOHEALTH sector. Ramping up the way from a successful idea to market.

Reflections on unmet needs
